Advantage Freight Network

We have been working with and hauling for AFN since October of 2004. They helped us with steady freight and quick payments, when we were small and basically unstable. Since then our working relationship has grown tremendously and is always pleasant. Their freight is clean, well paying freight and the brokers are always helpful and reliable. I would recommend AFN to any carrier and will always continue to work with them on a daily basis. You will not find a broker out there that is better with freight, pay and stable like AFN.

Thank you,
